Work character

With just over 10 years' experience at KFC, I have demonstrated commitment, hard work and loyalty to my employer. I have also proven excellent leadership qualities within our team through training and guiding new and youthful staff.

Being a personable individual with proven time-management skills developed from ongoing full-time and casual employment while studying. Highly articulate individual. Able to work confidently with diverse cultures and situations in which cultural awareness and appreciation are integral.

Solid academic background through courses at university and TAFE in mechanical engineering and advanced mathematics. Member of Toast Masters where development of speech and leadership skills is improved to a high standard at weekly classes.

I understand the principles of leadership management, to lead with great courage and dedication. I have the potential to be trained to a high level of skill that would make me very effective in the role through loyalty, honesty and good communication.

PERSONAL LIFE

I have recognised that speech, leadership and influence are strong traits which would be heavily desirable as a leading role. Over the past year I've dedicated myself to joining and attending Toast Masters where these traits are amplified and polished to a high standard every Tuesday night.

Throughout the past few years, I've volunteered as a rural volunteer firefighter where I've completed my training to work as a team in highly stressful environments to complete any task in an efficient and effective manner.

Throughout my personal time I've always thoroughly enjoyed staying physically active whether it's playing competitive soccer on Friday nights, working out in the gym or playing social games with friends such as tennis, golf or just about any other sport. Having a team with friends in the local indoor soccer competition is always a highlight of the week where our teamwork, focus and competitive nature truly comes to light.
